

**Dream White Metallic!**  
A colour renewed for the  
Ultrason tanning family!

The new colour in our Ultrason product range can be announced: Dream White Metallic!

With white being one of the most trendy colours at the moment, Ultrason revisits this trend. However, with a special touch: the Metallic effect! This provides a brilliance and gives our professional tanning equipment an even more luxurious appearance!

The new models in the Q-series that will be available in Dream White Metallic will be on display during the SmartTan Downtown in Nashville. For the latest updates on our Ultrason distributors exhibiting at trade shows and conventions, go to the [ultrasun.nl](http://ultrasun.nl) website or check our Facebook and Twitter pages!

**Ultrason USA @ SmartTan  
Downtown Nashville!**  
Do not miss this one!

The SmartTan Downtown Nashville is one of the largest indoor tanning exhibitions this autumn. That is the reason that at this show Ultrason will introduce some extraordinary innovations in design, and enhanced technical features in its professional product range!

We already can announce that at this show the Dream White Metallic colour will be shown to the public for the first time. Thijs Fabels of the Ultrason head office will come over to Nashville to personally introduce this and this and the other exclusive innovations. Curious? Come and visit Ultrason at the SmartTan on October 14-16! For sneak previews of all innovations check our Ultrason Facebook page regularly!

**Ultrason @ Worldwide Shows!**  
Visit our stand at exhibitions all  
over the world!

This time of the year the autumn exhibitions are taking place all over the world. Tim Leusink, Michael van Dijk and Thijs Fabels travel the world to assist our Ultrason distributors during their trade shows.

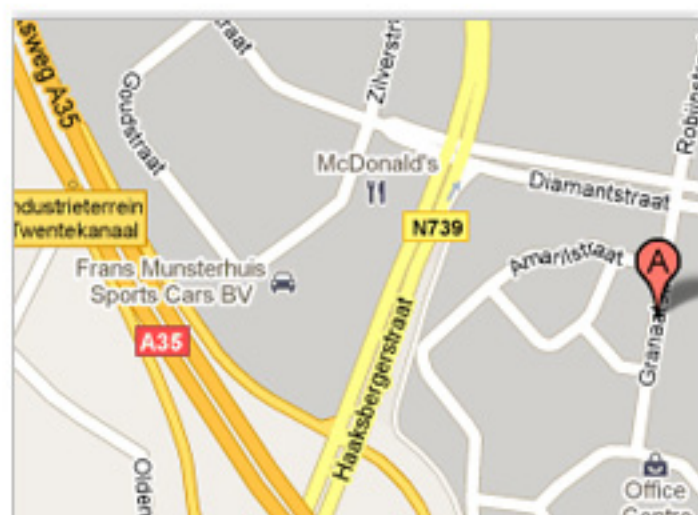

The Olympia Beauty Show in London has been successful for our partner Helionova and many new contacts were met by our Dutch distributor at the Fitness & Wellness Show in Rotterdam! Our distributor in the USA Tanning Supplies had a successful show at the new Chicago Island Sun Times exhibition. Many more exhibitions are yet to come. The SmartTan Downtown in Nashville, the InShape Beauty Show in Beirut Lebanon... and many more!

**MP3 holder introduced!**  
A small but very handy feature  
for the i-series!

The stand-ups in our i-series have been equipped with an MP3 plug for some time now. However, plug and play your favourite songs has never been easier as it is now!

From this moment on, our i8 and i9 stand-ups will standard be equipped with an MP3 holder. No more dangling iPods or holding on to your MP3 player while enjoying a tanning session. And not only can you put you MP3 player in here during your tanning session, it is large enough to place your mobile (smart)phone in here as well!

For more information about this new feature or about all other Ultrason news, keep checking our Ultrason Facebook page!
